

close the
glass loop

glass recycling in Sweden

Key figures

98% of glass packaging
was collected for recycling
in Sweden in 2020.

22.9 kg is the average
amount of glass collected
per capita.

Economic and legal incentives

Landfill tax
from 50 to 60 EUR/t

Incineration tax
from 14 to 16 EUR/t

Glass collection

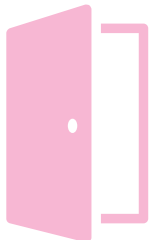

The collection is organised by Svensk Glasåtervinning AB (PRO*) and contracted to suppliers who transport collected glass to the recycling plant.

3 years is the duration of a contract for collection.

+

70% of glass packaging is collected through bottle banks. 30% of the collection comes from HORECA, household curbside collection and apartment complexes.

Colour separation of the collected glass.
